**2Checkout Solution:**

---

“We've worked with 2Checkout's Avangate solution for a few good years and the advantages of working with them are clear, from entering new markets fast to not having to deal with fraud or payment support issues. Sales brought in by their affiliate network are steadily increasing and their revenue recovery tools for subscriptions are solid. The CRO Program has helped us increase conversion rates and revenue per visitor. Overall, we see a revenue uplift of at least 15% by working with 2Checkout,

Context & Objectives

iolo’s main objective was to improve their eCommerce operations. Having initially started with an in-house solution, iolo was looking for a more efficient, cost effective and scalable ecommerce solution. They wanted to be relieved of order management, fulfilment, fraud and payment related issues and – at the same time – were looking for ways to improve ecommerce, increase conversions and boost sales via additional channels.

Solution: Avangate Enterprise Digital Commerce

“We gradually moved from our in-house solution to Avangate and the numbers proved it was a smart decision. We were keeping too many resources stuck on maintaining a legacy system that wasn’t cutting it anymore. 2Checkout provides tools and capabilities that help us both cut costs and increase revenue through optimization or marketing power,” Forrest Clark, VP of e-Commerce at iolo.

Projects & Results

Affiliate Sales: 82% YoY Increase

“Affiliate sales are important and we are just beginning to really tap into this promising revenue source. Thanks to 2Checkout, we have promoted our products consistently to their network and results have started to show. We are surely going to continue to invest more in this area,” Jorge Caicedo, Senior Manager - Campaigns, Marketing, iolo.

Looking at year over year figures, the increase is at an 82% level (Sept 1, 2016 – Aug 31, 2017 compared to Sept 1, 2015 – Aug 31, 2016), mostly due to:
CLIENT SUCCESS STORY

- Improved communication with affiliates
- **Campaigns and special offers** that are carried out regularly together with the Avangate Affiliate team. Some campaign examples are below:

  - **Affiliate Newsletter Promoting 30 Key Vendors**
  - **2017 Back to School Campaign**
  - **Dedicated Newsletter to New Affiliates**

From a level of 0.4% of overall global sales in 2015, **revenue generated by affiliates is now at a 2.4% level**. The boost in awareness regarding iolo products, as well as the increase in number of affiliates engaging with iolo provide a strong foundation for future campaigns and will facilitate future sales increases.
Additional Revenue Uplift with 2Checkout Revenue Recovery Tools

2Checkout Revenue Recovery Tools (RRT) generate a 9.7% revenue uplift from the successful renewal of automatic subscriptions. Services utilized by iolo:

- Account Updater Service
- Internal Account Updater
- Advanced Retry Logic
- Hard Declines Dunning Management

Total Earnings from RRT
Basic + Advanced, percentage out of total sales volumes:
9.7%

RRT ROI
12.7 Fold
Purchase Funnel and Conversion Rate Optimization Projects: 7-Fold ROI

iolo has worked with the 2Checkout team and their partner Conversion Sciences on more than 45 tests with 150+ test variations, across multiple customer acquisition funnels:

- Landing Pages
- Home Page
- Product Pages
- Shopping Cart

Project Example: Skip the Upgrade Page - “Hybrid Cart”

42% Increase in Conversion Rate by Skipping the Upgrade Page - Snapshot from “Optimizing the Purchase Funnel for Software Subscriptions” webinar: Findings from CRO Projects
“Working with 2Checkout and Conversion Sciences has allowed iolo to grow revenue by making data-driven decisions instead of trying to guess what our customers want. We split-test everything and our customers vote with their mouse clicks and wallets. The 2Checkout CRO Program for the Avangate platform is a key part of our digital marketing strategy and achieves a high return on investment,” Forrest Clark, VP of eCommerce, iolo.

iolo has generated a 7x return on their investment in the CRO program over the past 2.5 years. Test results vary greatly; some results examples include:

- Various increases in conversion rate from different tests (61%, 42%, etc.),
- +12% increase in purchase conversion rate (Home Page Re-design project),
- +11% increase in trial downloads,
- +4% increase in revenue per visitor (Cart Abandonment Offer).

Another showed a negative impact on revenue (-15%), which enabled iolo to limit losses by split-testing instead of just rolling out a change to their website.

Other Benefits from Using 2Checkout’s Avangate Platform

iolo recovers an additional 2% of its overall revenue with Avangate’s in-platform follow-up mechanism for unfinished payments, without any resources being utilized from iolo’s eCommerce team. Renewal notifications for manual subscriptions bring an additional 1.2%.

Recap of Results

• 82% YoY increase in affiliate sales,
• +15% revenue uplift generated via several services and platform capabilities: Revenue Recovery Tools, Affiliate Network, unfinished payments follow-up, promotions, cross-selling campaigns and localization capabilities in more than 100 countries,
• Increases in conversion rate and revenue per visitor through purchase funnel optimization projects. 7-fold ROI,
• Go to market speed, on a global basis,
• Increase in eCommerce operations efficiency through outsourcing.

Note: Affiliate sales increases are based on reports starting with 2015. Conversion optimization results are project-based, with an overall ROI estimated for all projects together. Revenue Recovery Tools and all other revenue uplift numbers are calculated for H1 2017.
