SysTools Gets 7% Additional Revenue Driven by the Avangate Affiliate Network
Since working with 2Checkout’s Avangate Affiliate Network, we have started seeing great results from this channel. ROI on the affiliates channel is not only positive, but also much bigger than that of other marketing initiatives, such as PPC advertising. For example, after only three months of active program engagement, affiliate network sales are 35% higher than sales resulted from PPC campaigns. We have started shifting priorities and resources to the channels and initiatives that make better sense for our business. We didn’t have this flexibility until we started working with 2Checkout.
Context & Objectives

Before working with 2Checkout, SysTools was focusing their inbound marketing efforts on PPC campaigns. One of the reasons for the switch from their previous commerce provider to 2Checkout was the Avangate Affiliate Network and management tools, which represented a promising marketing channel for the software company.

Solution & Results

Since working with 2Checkout’s Avangate Monetization Platform, SysTools also started working with 2Checkout’s affiliate management team in order to expand SysTools’ affiliate relationships and revenue and make the best use of the Avangate Affiliate Network.
For managing the affiliates channel, SysTools benefited from:

- An affiliate management module that is easy to set up and use;
- A performance marketing-oriented platform, where the SysTools team could set up campaigns, manage relationships, communicate easily with affiliates and understand how the program is performing through real-time reporting.

Results:

- More than 7% additional revenue driven by the Affiliate Network
- Affiliate network sales are 35% higher than sales resulted from PPC campaigns, which was the main acquisition channel prior to working with 2Checkout.
- Overachieving their partnership goal – within three months, SysTools achieved almost 50% of their yearly goal regarding affiliate partnerships
We were unsure about affiliates as a channel, as we hadn’t had much success with this in the past. However, the quality of the network that 2Checkout is providing with their Avangate Affiliate Network, and the affiliate management tools at our disposal made a huge difference and we could see significant results from this channel immediately.

Chirag Arora
Digital Marketing Manager, SysTools Software

SysTools is a digital forensics company that offers result-oriented support for businesses and consumers. SysTools will not only simplify your security operations and minimize risks, they will help protect your most crucial data, and effectively reduce the cost and complexity of your enterprise’s security infrastructure.
